

Cleaning Advice for Tiles

Post-Installation Cleaning

To ensure your tiles retain their pristine condition after installation, it is essential to follow these steps:

- 1. Grout Residue Removal:**
 - Use a tile-specific grout remover such as TFC – Grout Off.
 - Dilute the cleaner at a ratio of 1 part cleaner to 20 parts water.
 - Apply evenly using a watering can, scrub gently with a nylon bristled broom or black hand pad, and rinse thoroughly with clean water.
- 2. Neutralizing Residues:**
 - Use an alkaline-based cleaner like TFC – Easy Clean to neutralize any acidic residues.
 - Follow the same application process as above, ensuring no cleaner is left on the tiles.
- 3. Drying and Inspection:**
 - Allow the floor to dry fully and inspect for any remaining residue. Repeat cleaning if necessary.

Daily Maintenance

- 1. Routine Cleaning:**
 - Use TFC Quick Clean, an alcohol-based cleaner designed for daily use.
 - Dilute as needed (e.g., 1 capful per 10 liters of water for daily cleaning).
 - Mop the floor with a microfiber mop, ensuring it is streak-free and free of residues.
- 2. High-Traffic Areas:**
 - Increase cleaning frequency in high-traffic areas to maintain the tiles' appearance and prevent abrasive dirt buildup.
- 3. Special Textured Tiles:**
 - For textured surfaces, repeat neutralizing steps as needed and use a polypropylene brush for deeper cleaning.

Best Practices and Precautions

- **Avoid Harsh Chemicals:**
 - Do not use ammonia, phosphates, or abrasive cleaners that may damage the surface or leave residues.
- **Protective Measures:**
 - Use non-rubber-backed mats at entrances to reduce dirt and grit entering the space.
 - Ensure furniture is equipped with felt pads to prevent scratches.
- **Immediate Spill Management:**
 - Clean up spills immediately to prevent stains or long-term damage. Use a damp cloth for liquids and an appropriate cleaner for tougher stains.
